To the Chairman and Members of the Health and Welfare Committee

Madam Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report for 1969 covering both Health and Welfare Services.

The birth rate in Rutland fell during 1969 but was still slightly above the national rate for England and Wales. It is gratifying to note that the number of illegitimate live births (expressed as a percentage of total live births) was down compared to the previous year and is again well below the national figure of 8.4. The Peterborough Diocesan Moral Welfare Council undertook moral welfare work within the County and during 1969 had no occasion to make use of a Mother and Baby Home. It would therefore appear that our society is becoming more enlightened and that pregnancy in the unmarried no longer carries the stigma that necessitated confinement in the seclusion of a home for unmarried mothers. The majority of unmarried mothers now elect to have their confinements in the normal maternity hospital and subsequently retain and care for their infants.

There was a slight increase in deaths from all causes during the year and the most significant increase was in deaths due to Cancer of the Lung. In 1969 compared to the previous year twice as many Rutland residents died of this largely preventable disease. I regret that I must admit that anti-smoking propaganda is having little or no effect.

Attempts to recruit a registered chiropodist have failed as in previous years but the services provided by the voluntary organisations continue to expand.

At the beginning of the year the purpose built old persons home at Ketton became operative and residents were transferred from the annexe at Lonsdale House. This annexe was then to become a boarding house for the Rutland Girls High School.

Digitized by the Internet Archive

Wellcome Library

<https://archive.org/details/b30049039>

The other major event of the year in the field of Health and Welfare was the completion of the purpose built County Training Centre incorporating both the Adult and Junior Training Centres. The Adult Centre became operative in April 1969 and in addition to the mentally handicapped trainees, (hitherto in attendance at the temporary Adult Training Centre), it was possible to admit a limited number of physically handicapped adults. This integration was successful and gave rise to no problems and all trainees are eligible for the incentive bonus scheme. The Manager of the Adult Training Centre was seconded for the one year diploma course for Teachers of Mentally Handicapped Adults. In his absence the Supervisor of the Junior Training Centre undertook responsibility for both Centres.

Finally I would like to acknowledge the help and encouragement I have received from the Chairman and Members of the Health and Welfare Committee and to thank all members of the staff for their support during the year. I am particularly indebted to Dr. Palmer, Deputy County Medical Officer, for the compilation of this Report. At this time I would also like to acknowledge the immense help given to me by the voluntary organisations in Rutland.

I have the honour to be,

Your obedient Servant,

R.A. MATTHEWS

County Medical Officer of Health
and County Welfare Officer

ANNUAL REPORT FOR 1969

GENERAL STATISTICS

Area of Administrative County (in acres)	97,273
Population (Registrar General's Estimate 1969)	29,860
Rateable Value (1st April 1969)	£847,937
Product of a Penny Rate (Estimated)	£3,385

CARE OF MOTHERS AND YOUNG CHILDREN

Child welfare sessions, other than at general practitioner's premises were as follows:-

Cottesmore Aerodrome.	2nd and 4th Thursdays	2.30-3.30 p.m.
Edith Weston Aerodrome.	Alternate Mondays	1.45-3.30 p.m.
Ketton Methodist Church Hall.	1st and 3rd Tuesdays	2.00-3.30 p.m.
Langham Village Hall.	1st and 3rd Fridays	2.30-3.30 p.m.
Oakham - Vale of Catmose Village College.	1st Tuesdays	2.30 p.m.
Ryhall Village Hall.	1st and 3rd Thursdays	2.30-4.00 p.m.
Uppingham Church Rooms.	2nd and 4th Fridays	2.30-4.00 p.m.
Whissendine Village Hall.	3rd Wednesdays	3.00-4.00 p.m.

Number of children who attended during the year:-

Born in		
1969	1968	1964 - 67
574	497	246

Observation Register

There were 107 names on the register at the end of the year, these being children for whom special attention during development was considered necessary.

Congenital Abnormalities

All congenital abnormalities noted at birth continued to be classified and a return of cases was made monthly to the General Register Office. The object of the scheme is to compile statistical information, some of which will be published regularly in the Registrar General's returns, from which it should be possible to detect any national or regional changes in the pattern.

Care of Unmarried Mothers

This work is undertaken for the County Council by the Peterborough Diocesan Council whose Moral Welfare Worker investigates all applications for help and arranges for admission to a home for unmarried mothers, and the adoption of the baby where necessary. 13 cases were dealt with during the year.

DENTAL SERVICE FOR EXPECTANT MOTHERS AND
NURSING MOTHERS AND CHILDREN

NUMBER TREATED

	Expectant and Nursing Mothers	Children 0-4 (inclusive)
Number of persons examined during the year	59	102
Number of persons who commenced treatment during the year	47	65
Number of courses of treatment completed during the year	29	42

TREATMENT PROVIDED

	Expectant and Nursing Mothers	Children 0-4 (inclusive)
Scalings and gum treatment	16	10
Fillings	89	90
Extractions	8	45
General Anaesthetics	2	17

DENTURES PROVIDED

	Expectant and Nursing Mothers	Children 0-4 (inclusive)
Full upper or lower	-	-
Partial upper or lower	6	-

Treatment was given at the central clinic at the County Offices and in the Dental Caravan. There were 40 sessions devoted to maternity and child welfare patients during the year.

<u>BORN AT HOME AND TRANSFERRED TO HOSPITAL ON OR BEFORE 28TH DAY</u>						
		-	-	-	-	-
<u>PREMATURE STILLBIRTHS IN HOSPITAL</u>		1	-	2	-	-

Domiciliary Midwifery

There were 61 confinements at home and 429 in hospitals, a ratio similar to that of the preceeding few years; there seems no reason to expect that the trend to hospital, at the expense of domiciliary delivery will be reversed. Discussions with the hospital authorities have started with the aim of enabling district midwives to deliver their patients in the local maternity hospital.

Staff Meetings

Regular staff meetings were held and occasionally medical films were shown.

HEALTH VISITING

Cases Visited by Health Visitor	Number of Cases
Children born in 1969	494
Children born in 1968	309
Children born from 1964-67	625
Total number of children in lines 1-3	1428
Persons aged 65 or over	130
Number included in age 65 or over who were visited at the special request of a G.P. or hospital	88
Number of tuberculous households visited	8

In addition to routine home visits and supervision of clinics the health visitors also reported on the domestic circumstances of -

(a) old people for whom geriatric hospital accommodation was sought.

(b) expectant mothers for whom hospital confinement was indicated on social grounds.

Hearing

The health visitors are all trained in the screening of young children for deafness. All children suspected of having defective hearing were referred to the family doctor.

Phenylketonuria

Routine testing of urine of babies was carried out by the health visitors.

Total	530	334

TUBERCULOSIS

The Superintendent Nursing Officer visited homes of notified cases of tuberculosis, arranged for examination of contacts by the Chest Physician and reported on home conditions. She also attended the chest clinics at Melton Mowbray and Stamford Hospitals for case consultations with the Chest Physicians on matters affecting the patients' families.

<u>B.C.G. Vaccination</u>	<u>Contact Scheme</u>	<u>School Children Scheme</u>
Number skin tested	14	973
Number found positive	3	93
Number found negative	11	813
Number vaccinated	11	813

The skin testing of contacts is normally carried out by the Superintendent Nursing Officer; where the test shows the need for B.C.G. vaccination this is performed at a Chest Clinic.

AMBULANCE SERVICE 1969

Statistics

It will be seen from the statistical table that there was a slight increase in the number of patients carried and a slight decrease in the mileage covered by the vehicles. This can be attributed to many more local "day patients" being taken shorter distances.

Vehicles

A Dennis D.B.4 ambulance built with the recommendations of the Millar Report in mind, was purchased during the year.

Garage accommodation for the vehicle for the physically handicapped was agreed upon and work commenced on an additional bay at the ambulance station to provide the additional garage space. This new bay will also be equipped for servicing the vehicles.

Training Centre Transport

The demand for daily transport increased with the opening of the Special Care Unit and the acceptance of some physically handicapped persons at the County Training Centre.

Peterborough District Hospital

The result of the policy of transferring certain out-patient clinics from the Stamford and Rutland Hospital to the Peterborough District Hospital, and the closure of the casualty department after 6 p.m. at the Stamford and Rutland Hospital was felt much more than in the previous year.

Major Accidents

Major accidents are defined as those where the number of casualties to be taken to hospital is greater than can be dealt with by the local services.

Meetings were held with the Police and neighbouring Ambulance Services and arrangements for dealing with major accidents were reviewed and brought up to date.

Circular NM 192A

This circular incorporated an agreement for a revised wage structure with pay relating to standard of training, range of duties and experience. All the ambulancemen were assessed as competent over the whole range of duties, and thereby qualified for the top rate of pay, with one exception, who as a new entrant was booked to attend a six weeks Interim Course.

HEALTH EDUCATION

Although no Health Education Officer is employed every effort is made, through the exhibition of posters and direct contact between the Health Department staff and the general public, to promote health education.

Material for display is distributed to child welfare centres, schools, the School Dental Service and the Schools Meals Service.

CHIROPODY SERVICE

Once again it proved impossible to recruit an additional registered chiropodist and the directly provided service had to be confined to the three clinics served, on a part-time basis, by Miss Farndell. There was, however, an extension of the service provided by voluntary organisations (clubs for the elderly) to which the County Council gave financial support.

	<u>Direct Service</u>	<u>Voluntary Organisations</u>
Persons treated	44	190
Number of treatments	176	871

MEDICAL LOANS SCHEME

Items of equipment to facilitate home nursing continued to be issued in steadily increasing numbers.

Incontinence Pads

These pads are available free of charge through the joint Medical Loans Scheme, and direct from district nurse/midwives.

MENTAL HEALTH ACT 1959

Training Centre

Purpose built premises situated in Barleythorpe Road, Oakham, were completed early in the year at a cost of £69,500. The adult trainees moved in on 8th April and the juniors on 20th May; a special care unit was opened in November.

Junior training school

Classes comprised:-

Senior	- 7 children aged from 10-15 years.
Junior	- 6 children aged from 4-15 years.
Special Care	- 8 children aged from 15 months to 14 years.

The bright and airy new rooms plus the enhanced facilities for physical exercise have undoubtedly contributed to physical and emotional improvement of the children.

Adult training centre

Twenty-four trainees were attending by the end of the year. This number included three persons accepted because of varying physical handicaps, an experiment which has proved quite successful.

The manager of the centre began a one year course of training for the N.A.M.H. Diploma for Instructors of Adults in September 1969, and in his absence activity has of necessity been confined to routine work. It is pleasing to be able to report that the G.P.O. and local firms continued to support the centre by providing simple repetitive work for the trainees.

The mental welfare officer's work during the year included:-

Visits to subnormals	48
Visits requiring possible admission	60
After-care visits	274
Pre-care visits	283
Miscellaneous - visits to clinics, hospitals, training centres, conferences	333

HOME HELP SERVICE
Section 29 N.H.S. Act

During the year the total number of households which received "Help" was 202. This figure includes 52 new cases.

Classification of Cases

Aged 65 years and over	165
Chronic Sick and T.B.	17
Psychiatric	4
Maternity	4
Others	12

The number of cases finished during the same period was 58, for the following reasons:-

Moved away	4
Managing	24
Found private help	3
Hospitalised	6
Part III	4
Private Nursing Home	1
Deceased	16

The number of Home Helps and Good Neighbours employed as at 31st December 1969 was:-

Part-time Home Helps	30
Good Neighbours	3

Assessment Scale

In November the financial assessment scale was again amended to conform with the changes in the Ministry of Social Security's revised scale of allowances. In consequence all chargeable cases were visited and financially re-assessed. This resulted in some charges being reduced but the majority remained the same.

Training of Home Helps

The training programme scheduled for Autumn had to be postponed due to the absence from duty of the Home Help Organiser through illness.

Laundry Service

The laundering facilities at the Ambulance Station were again put to good use by the Home Helps during the year.

Co-operation with Home Nursing Service, Doctors and Hospitals

The Home Helps continued to assist the Home Nurses when called upon to do so, i.e. by bed bathing and lifting heavy and/or handicapped patients.

The practice whereby Home Helps notify the Home Help Organiser of any deterioration in their clients is of immense value in the preventive aspect of our work, enabling the Organiser to call upon other services as necessary, keeping the family doctor informed and in most cases preventing a complete breakdown and probable hospitalisation of a patient.

Home Help Rally 1969

On May 17th, 8 Home Helps and the Home Help Organiser attended a one day conference and rally at Spalding.

Home Help Organisers Weekend School and Conference 1969

The Home Help Organiser attended the Annual Weekend School and Conference at Swansea University on September 18th, 19th and 20th. The theme of the Conference was "Into the 70's".

Finally, the amount of voluntary work done for the householders by the Home Helps should be placed on record. It is not unusual for them to acquire by any lawful means articles of clothing, bedding, furniture etc. for their particular charges - for example - one Home Help seeing some pieces of matting put out for the refuse collector got off her bicycle, obtained permission to remove them from the householder concerned, took them home, repaired and cleaned them, then used them to replace the very threadbare and dangerous mats of one of her elderly patients. Many similar incidents of ingenuity and goodwill by Home Helps could be mentioned.

WELFARE FOODS SERVICE

Welfare foods as issued by the Ministry of Health continued to be distributed at 21 centres throughout the County. This service is administered by the W.R.V.S.

Issues during the year were as follows:-

National Dried Milk Full and Half-Cream	3,575
Cod Liver Oil	284
Vitamin Tablets	388
Orange Juice	6,132

FOOD AND DRUGS ACT 1955

The following is a table giving particulars of the samples taken under the above Act:-

<u>Articles</u>	<u>Formal</u>	<u>Informal</u>
Milk	4	5
Channel Islands Milk	2	1
Beef Curry	-	1
Chicken Curry	-	1
Chow Mein	-	1
Crumble Mix	-	1
Orange Crush	1	-
Pastry Mix	-	1
Tea Cake Mix	-	1
Batter Mix	-	1
Bread Sauce Mix	-	1
Cheese Sauce Mix	-	1
Curry Powder	-	1
Fritter Mix	-	1
Ham Spread	-	1
Low Fat Spread	-	1
Paste	-	2
Soft Drink	-	1
Soup	-	1
Vinegar	-	1
Jelly	2	-
Custard Powder	1	-
Lemon Pie Filling	1	-
Margarine	1	1
Puff Pastry Mix	1	-
Plum Pudding	1	-
Sardine Spread	1	-
Turkey Spread	1	-
Cheese	-	2
Self Raising Flour	-	1

Two samples of milk were found to be deficient in fat. The ordinary milk was 5% deficient and the Channel Islands milk 1% deficient.

A packet of Tea Cake Mix was found to contain insufficient cherries and angelica for the decoration of the cakes.

REGISTRATION OF NURSING HOMES

(Sections 187 to 194. Public Health Act 1936)

	Number of Homes	Number of beds provided for		
		Maternity	Others	Total
Homes first registered during the year	-	-	-	-
Homes on register at the end of the year	3	-	55	55

RURAL WATER SUPPLIES AND SEWERAGE ACTS 1944-65

The following schemes were approved in principle during the year:-

Ketton Rural District Council

Sewerage scheme for Clipsham.

Oakham Rural District Council

Sewerage scheme for Stretton.

THE UNIVERSITY OF CHICAGO DEPARTMENT OF CHEMISTRY

EXPERIMENT 1: THE PREPARATION OF ETHYLENE

Objectives: To prepare ethylene gas from ethanol and to determine its physical and chemical properties.

- 1. Preparation of ethylene gas from ethanol.
- 2. Collection of ethylene gas by downward displacement of water.
- 3. Determination of the density of ethylene gas.
- 4. Determination of the heat of combustion of ethylene.

HANDICAPPED PERSONS

The following persons were on the register at the end of the year:-

		Children under 16	Persons aged 16	Persons aged 65 and over
<u>Deaf with Speech</u>	Males	-	2	-
	Females	-	-	1
<u>Deaf without Speech</u>	Males	-	1	1
	Females	-	-	1
<u>Hard of Hearing</u>	Males	13	4	2
	Females	8	4	1
<u>Handicapped Persons (General Classes)</u>	Males	17	30	12
	Females	30	25	17
Total		68	66	35

Aid to the Disabled

Applications for aids and equipment for the disabled were dealt with by the Medical Loans Scheme.

Table 1

Table 1 shows the results of the experiment. The data is presented in the following table.

Run	Time	Temp	Pressure
1	10	100	100
2	20	100	100
3	30	100	100
4	40	100	100
5	50	100	100
6	60	100	100
7	70	100	100
8	80	100	100
9	90	100	100
10	100	100	100

Table 1

Table 1 shows the results of the experiment. The data is presented in the following table.

NATIONAL ASSISTANCE ACT 1948

Welfare of Disabled Persons (Section 29 and 30)

The Royal Leicester, Leicestershire and Rutland Institution for the Blind continued to maintain the registers of blind and partially sighted persons in the County and also to provide welfare services for them as agent for the Rutland County Council.

Blind Register

Number of persons on register at 31.12.69. - 49

Partially Sighted Register

Number of persons on register at 31.12.69 - 19

Structural Alterations in Homes of Disabled

The Council co-operated with the Housing Authorities in dealing with requests for structural alterations in the homes of the disabled.

Welfare of the Deaf

The Northants and Rutland Mission to the Deaf are the Council's Agency for the welfare of deaf or partially deaf persons. The Rev. Kenneth Earle pays home visits, arranges lip-reading classes and club activities.

Clubs

With the opening of the afternoon club in Braunston in August 1969, the number of clubs for the elderly in the County has now increased to twelve.

Holidays

A party of 33 elderly people from Oakham, Uppingham and the villages of Cottessmore, Greetham, Lyddington and Barrowden enjoyed a holiday at Pakefield Holiday Camp, near Lowestoft, 13th-20th September.

Voluntary Service (Youth Groups)

Oakham and Uppingham Schools continue with the voluntary help scheme for the elderly.

Vale of Catmose Village College

During the year 14 year old students attending the Vale of Catmose Village College commenced to visit elderly and disabled persons in the town. The young teenagers make their visits on Wednesday mornings, in order to assist with shopping on Market day.

Disabled Persons Register

The number of disabled persons over 16 years of age registered with the Department has increased to 84.

ANNUAL REPORT 1969

SCHOOL HEALTH SERVICE

I have the honour to present the Annual Report of the School Health Service for 1969.

Although this is mainly statistical and self explanatory there are several items worthy of comment. The health of the school children in Rutland continues to be satisfactory. No child seen at school medical inspection was considered to be in an unsatisfactory state of nutrition.

The pattern of school medical inspection remained unaltered with routine examination of all entrants and school leavers, the remaining age groups being examined on a selective basis.

Defects of vision constituted the most common abnormality found in school children. Of some 1,808 children tested by the school nurse no less than 23% were found to have defects of vision and nearly 8% required spectacles.

During 1969 an Orthoptic Clinic was established in the County Offices. This is now held fortnightly and is a great advantage to parents who hitherto had to travel to Leicester or Stamford. It also reduces very slightly the load on the Ambulance and Hospital Car Services.

Routine tuberculin testing and B.C.G. vaccination of susceptibles was offered to secondary school entrants and this year both Oakham and Uppingham Public Schools participated in the scheme. Those children with markedly positive reactions were x-rayed and all found to be healthy.

I would like to take this opportunity to thank the Chairman and Members of the Committee, the Chief Education Officer and all members of staff of Rutland schools for their help and co-operation throughout the year.

R. A. MATTHEWS

PREVENTION OF TUBERCULOSIS

Circular letters explaining B.C.G. vaccination and incorporating consent forms were sent to the parents of all children on entry to the secondary modern and grammar schools. In addition, for the first time this service was accepted at Oakham Public School.

A preliminary test to ascertain the susceptible children was done and the tubercular negative children were later vaccinated. Children found to be strongly tubercular positive were x-rayed to exclude the possibility of a latent tubercular infection.

<u>School</u>	<u>Tested</u>	<u>Read</u>	<u>Positive</u>	<u>Vaccinated</u>
Casterton Village College	80	77	-	77
Rutland High School	71	70	16	53
Uppingham Village College	59	56	3	53
Vale of Catmose Village College	107	97	13	84
Uppingham School	122	120	9	111
Oakham School	506	461	45	416
Stamford Boys School	21	18	6	12
Stamford Girls High School	7	7	1	6

Of 93 positive reactors enquiries showed that 73 had received B.C.G. vaccination at an earlier age.

Chest x-ray of the positive reactors showed that all were free from lung disease.

EYE SERVICE FOR SCHOOL CHILDREN

The school nurse tested the visual acuity of 1808 children and those in the 10 - 11 age group were tested for colour vision.

Eye Disease, Defective Vision and Squint

	Number of cases dealt with
External and other, excluding errors of refraction and squint	-
Errors of refraction (including squint)	421
Total	421
Number of pupils for whom spectacles were prescribed	141

Dr. N.S. Batheja, D.O.M.S., the Assistant Ophthalmologist appointed by the Sheffield Regional Hospital Board for the Leicester Royal Infirmary and associated clinics held 36 refraction clinics at the County Offices, Oakham.

CHILDREN WITH IMPAIRED HEARING

Routine audiometric testing of school entrants was continued during the year. The school nurse carried out routine tests in the primary schools using an Amplivox (Model 51) pure tone transistor audiometer.

The services of the Leicestershire Education Authority's peripatetic teacher of the deaf are available to Rutland children by arrangement. During the year 23 partially deaf children were visited in their homes and in school.

ORTHOPTIC CLINIC

Miss M.E. Bacon, the orthoptist, commenced her work at the County Offices on 25th April, 1969. The clinic is held every fortnight on a Friday and during 1969 there were 17 clinics with a total of 233 attendances.

INFESTATION WITH VERMIN

Total number of examinations in the schools by the school nurse	2,506
Total number of pupils found to be infested	17
Total number of individual pupils in respect of whom cleansing notices were issued (Section 54 (2), Education Act, 1944)	Nil
Total number of individual pupils in respect of whom cleansing orders were issued (Section 54 (3), Education Act, 1944)	Nil

The school nurse makes routine visits to each school every term and special visits at the request of head teachers. Assistance is given by the N.S.P.C.C. inspector in visiting homes of persistent offenders and urging treatment.

The school nurse paid 155 home visits during the year.

HANDICAPPED PUPILS AT SPECIAL SCHOOLS

BLIND

There are no blind children in Special Schools.

PARTIALLY SIGHTED

1 Boy	(28. 2.59)	West of England School for Partially Sighted, Exeter.
1 Boy	(11. 9.55)	Exhall Grange, Coventry.
1 Girl	(20.10.62)	Sunshine House, Leamington Spa.

PARTIALLY HEARING

1 Girl	(28. 9.63)	Caverstead Road Nursery School, Peterborough (day pupil).
1 Boy	(23.10.61)	Wainwright House Nursery School, Cheadle Hume, (Royal Residential School for the Deaf).

PHYSICALLY HANDICAPPED

1 Girl	(1. 2.63)	Wilfred Pickles School, Tixover Grange, (day pupil).
1 Boy	(4. 9.59)	Wilfred Pickles School, Tixover Grange, (day pupil).
1 Girl	(30.11.54)	Thieves Wood School, Mansfield.

MALADJUSTED

2 Boys	(18. 7.57)	Newnham House, Newnham-on-Severn, Worcestershire.
	(16. 6.56)	
1 Girl	(25. 2.54)	Homestead Hostel, Melton Mowbray.

DEAF

There are no deaf children in Special Schools.

EPILEPTIC

There are no epileptic children in Special Schools.

EDUCATIONALLY SUB-NORMAL

1 Girl	(10.12.55)	Lankhills, Winchester, Hants.
1 Boy	(2. 3.56)	Stubton Hall School, Kesteven.
1 Boy	(1. 2.55)	Beacon School, Litchfield.
4 Boys	(1. 7.53)	Maplewell Hall, Leicestershire.
	(29. 3.57)	
	(14.11.56)	
	(28. 5.54)	
3 Girls	(27. 8.55)	Orton Hall School, Orton
	(16. 9.54)	Longueville.
	(21. 7.59)	
1 Girl	(18. 4.55)	Seacroft Residential School, Skegness.

MEDICAL EXAMINATIONS OF TEACHERS AND STUDENTS

35 candidates for admission to Teacher's Training College, and 1 teacher were examined.

Summary of Receipts and Disbursements

Receipts: Cash on hand, 250.00
 Disbursements: Cash on hand, 250.00

ANNUAL REPORT OF THE PRINCIPAL SCHOOL DENTAL OFFICER

FOR 1969

Work has progressed steadily with little change in pattern. There is more than enough to be done each day in inspecting school-children and looking after those who accept the service offered.

Dental health education has had to be confined to the chair-side, the waiting room and to what can be taught in the time available at school inspections. Today there are few parents who do not understand the problem facing the profession with regard to the prevalent caries of temporary teeth. So many of the parents, though, will not take the trouble to help in solving it or to set the necessary example themselves by regular brushing of their own teeth and rinsing the mouth after meals. We exhort young mothers to try to cultivate in their children a preference for things savoury rather than sweet but few appear to take this advice and put it into practice.

The number of children inspected during 1969 was 3,712 and 288 were re-inspected. Inspection two or three times a year is conscientiously sought by parents for their children and by the older children themselves. Realising the restrictions on our time, we nevertheless appreciate that it would undermine confidence in all the professional advice given if we did not try to give these children appointments. Fewer children re-inspected this year required treatment compared with those children re-inspected during 1968.

Pupils and trainees at the new Junior and Adult Training Centres were inspected, treatment being offered to those at the Junior Training Centre and advice given concerning treatment to the adults.

The sixty spastic children at Tixover Grange were inspected and treatment given to the urgent cases.

There has been a 38% increase in the number of children who have had to have emergency treatment. This is to be understood considering the longer time it is now taking to go round the schools owing to increased numbers of pupils.

THE HISTORY OF THE UNITED STATES OF AMERICA

CHAPTER I

The first settlement in America was made by the Spaniards in 1492. They discovered the continent of America, and the first settlement was made by the Spaniards in 1492.

The first settlement in America was made by the Spaniards in 1492. They discovered the continent of America, and the first settlement was made by the Spaniards in 1492. The first settlement in America was made by the Spaniards in 1492. They discovered the continent of America, and the first settlement was made by the Spaniards in 1492.

It has become necessary to draw the attention of the school staffs and the parents to the fact that the keeping of a dental appointment must come before social activities. These activities in the schools have increased year by year and they can, if allowed, be a hindrance to the work of the school dental service.

Orthodontics

Mr. Parker, our consultant orthodontist, still makes time for his monthly session in the clinic here. This is invaluable to us and work under his supervision progresses smoothly and efficiently.

Maternity and Child Welfare

We try to give three sessions a month to the maternity and child welfare work. Unfortunately, the work requiring to be done amongst the pre-school children is virtually untapped.

Holiday arrangements this year were not as satisfactory as in 1968. Two possible locums were contacted but would not accept the terms offered. The holiday period had to be divided so that the clinic was not left without a dental surgeon longer than ten days at any one time. In a department where the work is essentially practical and many of the community are dependent upon it, it is important that the service is maintained over a holiday period.

Arrangements were made in September with R.A.F. Strike Command for the dental officer at North Luffenham to give two evening sessions of two hours a week to the county dental service. We are singularly fortunate in having the services of so helpful and so efficient a colleague as Flt. Lt. Eaton.

We, in the surgery, and the parents and patients appreciate the appointment of Mrs. Hollis as our full-time receptionist.

As in any department difficulties are part of the day's work not only in the administration of the service but by the very nature of our work. Miss Mann, my surgery assistant, and I are therefore all the more grateful every year for the consistent help we receive in so many ways.

DENTAL INSPECTION AND TREATMENT

ATTENDANCES AND TREATMENT

	AGES <u>5 to 9</u>	AGES <u>10 to 14</u>	AGES <u>15 and over</u>	<u>TOTAL</u>
First visit	627	552	103	1,282

ORTHODONTICS

New cases commenced during year	42
Cases completed during year	25
Cases discontinued during year	6
No. of removable appliances fitted	45
No. of fixed appliances fitted	-
Pupils referred to Hospital Consultant	15

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of differential equations. The second part is devoted to the construction of the solution. The third part is devoted to the study of the properties of the solution. The fourth part is devoted to the application of the results to the theory of differential equations.

2. The second part of the paper is devoted to the construction of the solution. It is shown that the solution can be constructed in a unique way. The third part is devoted to the study of the properties of the solution. The fourth part is devoted to the application of the results to the theory of differential equations.

3. The third part of the paper is devoted to the study of the properties of the solution. It is shown that the solution has certain properties. The fourth part is devoted to the application of the results to the theory of differential equations.

4. The fourth part of the paper is devoted to the application of the results to the theory of differential equations. It is shown that the results can be applied to the theory of differential equations.

5. The fifth part of the paper is devoted to the application of the results to the theory of differential equations. It is shown that the results can be applied to the theory of differential equations.

DENTAL INSPECTION AND TREATMENT (cont'd)

PROSTHETICS

	<u>AGES</u> <u>5 to 9</u>	<u>AGES</u> <u>10 to 14</u>	<u>AGES</u> <u>15 and over</u>	<u>TOTAL</u>
Pupils supplied with F.U. or F.L. (first time)	-	1	-	1
Pupils supplied with other dentures (first time)	-	3	-	3
Number of dentures supplied	-	4	-	4

ANAESTHETICS

General anaesthetics administered by Dental Officer

INSPECTIONS

(a) First inspection at school.	Number of pupils	3,400	21
(b) First inspection at clinic.	Number of pupils	334	1
	Number of (a) + (b) found to require treatment	1,957	
	Number of (a) + (b) offered treatment	1,780	
(c) Pupils re-inspected at school clinic		288	
	Number of (c) found to require treatment	158	

SESSIONS

Sessions devoted to treatment	372
Sessions devoted to inspection	39
Sessions devoted to dental health education	-

ANNUAL REPORT
OF THE
SENIOR EDUCATIONAL PSYCHOLOGIST

We have pleasure in recording the appointment of the second Consultant Children's Psychiatrist, Dr. K.D. Hopkirk, who took up his duties on July 28th 1969. Dr. Hopkirk came to us after holding a Consultant Children's Psychiatrist's post for three years in the Doncaster and Rotherham area of the Sheffield Region. Although his appointment has meant only an extra $1\frac{1}{2}$ sessions of psychiatric time to the total of Leicestershire and Rutland Local Authority services, Dr. Hopkirk has taken over Rutland as his particular area.

In September a new Psychiatric Social Worker, Miss M. Rayward, was appointed and it is anticipated that she will be working with some of the Rutland cases in the future. Miss Rayward was appointed in place of the part-time Psychiatric Social Worker, Mrs. P.A. George, who never in fact worked in Rutland because of the sessional nature of her appointment.

1969 showed the ever increasing demand for the services of the clinic continuing the upward rise reported in 1968. The total referrals both educational and psychiatric rose to 43 compared to 33 in the preceding year. The vast majority of children so referred were seen in school by Mr. Todd or Mr. Gillham. It will be recalled that after Mr. Gillham's appointment in 1967 Mr. Todd assumed responsibility for the secondary modern and grammar schools, in other words, the senior pupils, and Mr. Gillham for primary school children. In 1969, 23 of the total number of cases referred were seen by Mr. Gillham and 15 senior school children, 13 from secondary modern and 2 from grammar schools, were seen by Mr. Todd. In addition 5 pupils from private schools were also seen.

In the following, table II shows the age distribution of the children referred to the clinic and illustrates the well known fact that there are more boys referred than girls. The peak age group this year was at 9 years with 6 boys and 2 girls.

Table IV (a) shows the break-down of the types of problems dealt with and it will be seen that the majority were educational problems and that of the remainder 7 were classed as reactive, that is to say, essentially normal children reacting to unfavourable circumstances around them.

Table IV (b) gives an indication of how the problems were dealt with. In the 36 of the children referred, advice given to the referring agency and to schools was adequate to help the problem. In 3 cases the Psychiatrist's opinion was sought in addition. In 5 the Psychologists assumed the responsibility of further follow-up and in one case only was psychotherapy (treatment) considered appropriate. It will be seen that in 6 cases that recommendation for observation and survey was recorded. More than one recommendation may be made on a single case which explains why the simple total of the recommendations gives a figure of 51, that is 8 more than the cases referred.

No. of new referrals	43
No. of children seen in school by Educational Psychologists	39
No. of home and clinic visits by P.S.W.s (Miss J. Sutcliffe and Miss K. Tauber)	40
No. of new cases seen by Consultant Children's Psychiatrist	4

Table II

Total number of children referred in each age group:-

	5	6	7	8	9	10	11	12	13	14	15	16	17	Total
Boys	-	2	3	3	6	3	1	3	4	-	1	1	1	28
Girls	1	3	2	1	2	-	1	1	1	2	1	-	-	15

TABLE III

Source of referral:-

School	19
Principal School Medical Officer	13
General Practitioners	2
Hospitals	1
Parents	4
Chief Education Officer	3
Other Authority	1

The first part of the paper is devoted to a discussion of the
 various methods of determining the rate of reaction. It is shown
 that the most reliable method is the one which involves the
 measurement of the change in concentration of one of the
 reactants or products. This method is applicable to all
 reactions, and it is the only one which gives accurate
 results. The other methods are only applicable to certain
 types of reactions, and they are not as reliable as the
 first method.

- (1) The rate of reaction is determined by measuring the change in concentration of one of the reactants or products.
- (2) The rate of reaction is determined by measuring the change in pressure or volume of a gas.
- (3) The rate of reaction is determined by measuring the change in color or optical density.
- (4) The rate of reaction is determined by measuring the change in electrical conductivity.
- (5) The rate of reaction is determined by measuring the change in pH.

Time (min)	0	10	20	30	40	50	60	70	80	90	100
[A] (mol/l)	0.10	0.08	0.06	0.04	0.02	0.01	0.00	0.00	0.00	0.00	0.00
[B] (mol/l)	0.00	0.02	0.04	0.06	0.08	0.10	0.12	0.14	0.16	0.18	0.20

TABLE IV (a)

Type of Problem:-

Diagnosis

1)	Neurotic	-
2)	Reactive	7
3)	Social	3
4)	School Phobia	1
5)	Organic	-
6)	Psychotic	-
	a) Childhood Psychosis	-
	b) Early Schizophrenia	-
7)	Attempted suicide	-
8)	Psychosomatic	-
9)	Court Report	1
10)	Subnormality	-
11)	Educational	31

TABLE IV (b)

Recommendation:-

a)	Treatment	1
b)	Observation and Survey	6
c)	Transfer to hostel	-
d)	Transfer to hospital	-
e)	Advice given	36
f)	Refer to School Psychological Service	5
g)	Refer to Child Guidance Clinic	3
h)	Remedial Teaching	-
i)	Remedial teaching survey	-
j)	Refer to other agencies	-
k)	E.S.N. School	-
l)	Special class	-

TABLE V

Type of School:-

Primary)	23
Junior)	
Secondary Modern	13
Grammar	2
Private	5
